An aerial, black and white photograph of a dense forest. The canopy is thick with various types of trees. A thick layer of mist or smoke rises from the forest floor, partially obscuring the lower parts of the trees and creating a hazy, atmospheric effect. The lighting is soft, with some brighter patches where the sun might be hitting the canopy.

An aerial, black-and-white photograph of a construction site. In the upper left, a large piece of heavy machinery, possibly a paver or a similar machine, is working on a surface. It has a long, articulated arm and a hopper. To its right, a smaller vehicle, perhaps a truck or a smaller paver, is also visible. The ground is covered in a dense pattern of tire tracks, indicating heavy traffic. In the lower right, there is a large, rectangular pile of materials, which the text identifies as red body floor tiles. The overall scene is one of active construction or material processing.
